

The Bees Knees Bar Drinks Packages

We believe the customer should get what they want not what a company wants to give them. So EVERYTHING we do or offer can be tailored to suit every individual client. Our whole service is bespoke. Having said that when clients start the process of deciding what they would like, comparing different products and companies and trying to get an idea of cost they need a starting point so we have put together a few sample packages (as mentioned these can be “chopped and changed” to suit the occasion, tastes or budget.
